VENTILATION—PURE AIR.

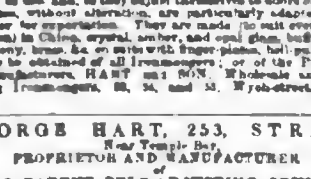
Strutt's Ventilator, for the admission of pure air through an EXTERNAL WALL.

With single pulley, from 6s. each; with leading pulley, from 8s. 6d.

These Ventilators are so arranged that the requisite quantity of air may be admitted for the due ventilation of an apartment without the slightest draught being felt by the occupants; and as they are placed in the external wall, their action is not impeded when the house is closed for the evening, at which time a constant supply of fresh air is much required.—HAYWARD BROTHERS, 9 and 10, Queen-street, 135, Bloomsbury-road, and 119, Union-street, Borough; and of all respectable Ironmongers, Builders, &c.

By her Majesty's Royal Letters Patent.

PITT'S PATENT SELF-ADJUSTING DOOR KNOBS AND LATCH SPINDLES.



HART and SON beg to invite the attention of Architects, Builders and others to their Door Furniture, mounted for PITT'S PATENTED SPINDLES. The Knobs are stronger, more durable, and more elegant in form, than those in ordinary use, as the spindles, being loose, do not require the objectionable side screw. They are more readily fixed, are suitable for every description of latch now in use, and, as they adjust themselves to doors of different thicknesses, without alteration, are particularly adapted for the country or for exportation. They are made (to suit every style of furnishing) in China, crystal, amber, and opal glass, buffalo, horn, ivory, ebony, brass, &c. on suits with finger-plates, bell-pulls, levers, &c.—May be obtained of all Ironmongers; or of the Proprietors and Manufacturers, HART and SON, Wholesale and Manufacturing Ironmongers, 33, 34, and 35, Wych-street, Strand, London.

PRIZE MEDAL of the GREAT EXHIBITION awarded to PIERCE'S UNIVERSAL FIRE-LUMP GRATES, and IMPROVED COTTAGERS' GRATES.

—Manufactory and Warehouse, 8, Jermyn-street, Regent-street.

The Best and Cheapest Grates for all useful purposes are PIERCE'S COTTAGE GRATES, made entirely of the best Fire Lump, in one entire piece, and having strong octagon bars, with bottom complete, ready for fixing.

PIERCE strongly recommends these Grates to public notice for Cottages, Lodges, Almshouses, Farmhouses, Servants' and other Bedrooms, Offices, &c. as from their durability and economy, they possess many advantages over the common Cast Iron grates that have been hitherto made use of in cottages and bedrooms the most important of which consist in their comfort and usefulness, combined with the great strength and durability of the material (the best and purest fire-clay), producing a bright and cheerful fire, without any smoke from either ashes or cinders, and will burn wood, coals, coke, or peat. Economical in cost; and, from their construction, requiring but a very small quantity of fuel; giving off a large portion of radiant warmth into the room and admirably adapted for cooking, having capacious and safe hobs, which can be enlarged by the addition of the double cop bar, to hold pots or other vessels when boiling. In several sizes, from 24 to 33 inches wide, at various prices from 11s. 6d. to 18s.
